Unique Planting Medium for Soil Nail Head Enhancement

Eco-Bag is an UV-resistant polyethylene bag filled with organic fiber soil. It is the most convenient and cost-effective planting media to establish low maintenance and sustainable vegetation for concrete soil nail head.

Advantages of Eco Bag

- UV resistance
- Easy to install
- Durable
- Light weight materials
- Well drainage with Fiber Soil filling
- Prefabricated fertilizer and seed
- Various variety of plant species
- Good planting medium on steep slope

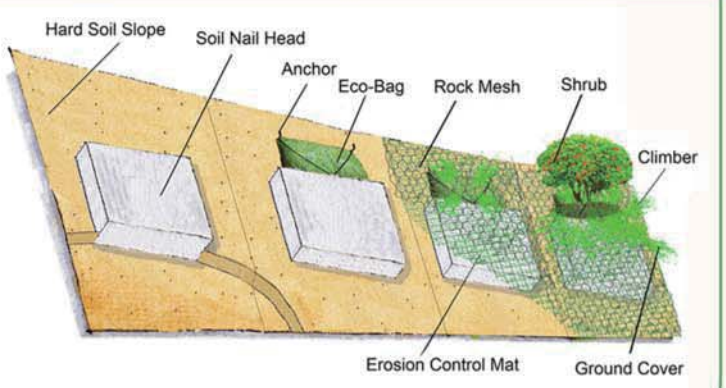

Failure of Vegetation Establishment Using Hessian Bag on Soil Nail Head

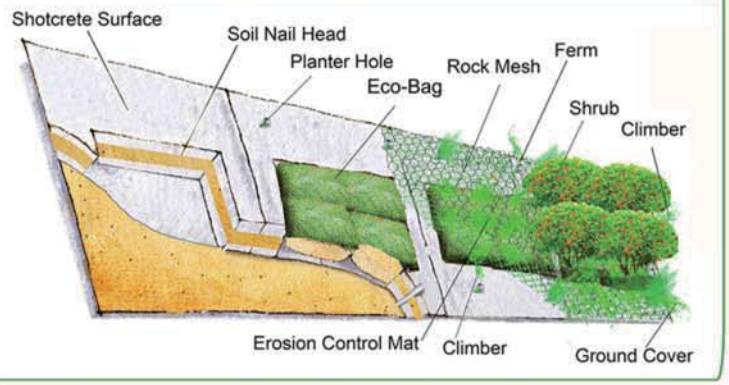

- Bulk effect
- Deteration of jute material
- Low moisture retaining capacity
- Wash out of soil

Feature Details

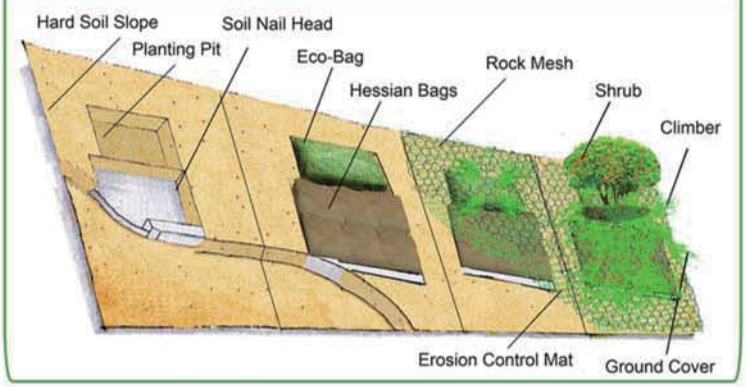

Application on Extruded Soil Nail Head

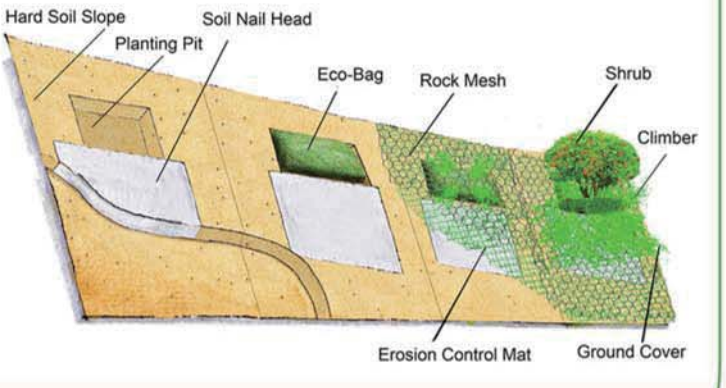

Application on Soil Nail Head on No-Fine Concrete or Shotcrete Surface Slope

Application on Intruded Soil Nail Head with Hessian Bag

Application on Flat Slope Nail Head
